TO :

REFERENCE : Memo dated 2 August 1951 regarding Revision of Covert Administrative Support Regulations, and replies thereof

SUBJECT : Delegations of Authority

FROM : Task Force:

1. Replies to the reference memo made the point in common that the use of the Confidential Funds Regulations could be facilitated by a separate section devoted to delegations of authority. The consensus has been that this section should be published as a revision or addendum to the existing Confidential Funds Regulations for immediate use, and should be subsequently included in the new Covert Regulations at the time of their publication.

2. Delegations which pertain to administration of the covert offices have been selected from existing Agency, Confidential Funds, OSO, and OPC Regulations. A summary has been prepared by title of position with an alphabetically arranged subject matter breakdown within each of the position categories. The statements included in this presentation are taken directly from the Regulations with occasional changes in the word order to orient the delegation around the particular position.

3. Distribution of the material in its present form is to solicit critical comment and constructive suggestions. It is requested that remarks be addressed to the problems of making this section complete without superfluity in the essential delegations; accurate and current in content; and editorially correct. The intent is to provide a brief summary with reference to the appropriate Regulation for the official delegation of authority.
